# Get access to digital health services for your public healthcare needs

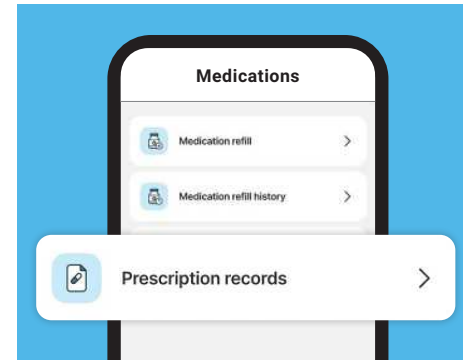

Developed by  
 synapse

## Manage appointments conveniently

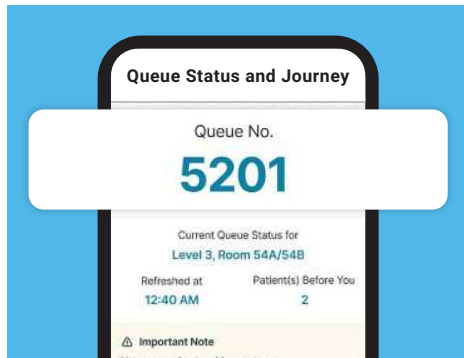

View, reschedule, cancel or make an appointment.

\*Appointment slots are subjected to availability at healthcare institutions.

## View and manage your prescriptions

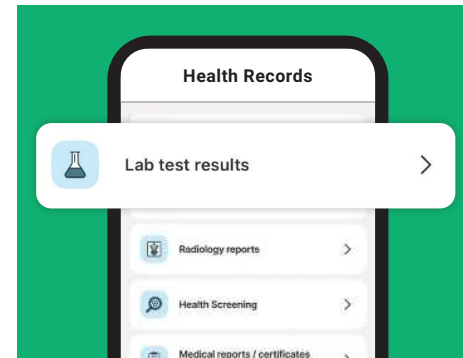

View past prescribed medication and request to refill/ renew prescriptions online.

## Pre-register your appointments

Get a queue number and check your queue status before your appointment.

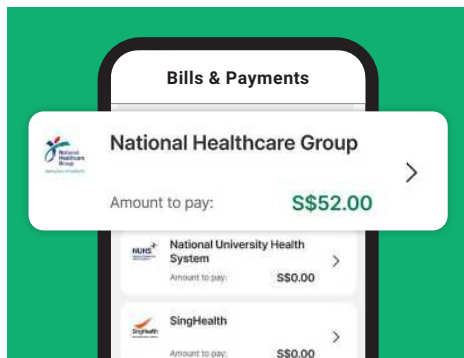

\*Mobile registration is only available 30 - 90 minutes before appointment time.

## Access health records anywhere

Get an overview of your Health Records easily.

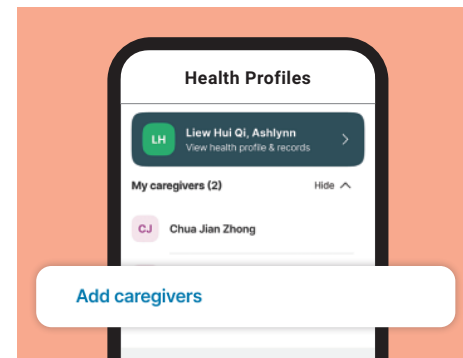

\*Only general and selected lab test reports are made available.

## Pay medical bills online

Pay and keep track of your medical bills effortlessly.

\*Receive payment details after your appointment, and download your receipt upon successful payment.

## Manage your loved ones' health

Add your loved ones' health profiles to manage their health records and transactions and/ or allow them to access to yours.
